

Lauber Business Partners is offering YOUR Leadership Team a unique learning opportunity!

- Author and Leadership Consultant, Patrick Lencioni, has very recently introduced *The Six Types of Working Genius* – a model that reveals an interdependent process for getting work done.
- Each **Genius Type** contributes to the workflow...from Ideation (**Genius of Wonder and Genius of Invention**), to Activation (**Genius of Discernment and Genius of Galvanizing**), to Implementation (**Genius of Enablement and Genius of Tenacity**)
- Overall, this model can **fundamentally transform** your leadership team by...
 - Starting the conversation about **natural gifts** that individuals bring to a task/project
 - Providing a **new perspective** on how team members work together and need each other
 - Increasing the likelihood of success by **identifying any gaps** and ensuring that you have filled all six of the geniuses required to get something done
 - **Increasing productivity, fulfillment, and effectiveness** - when everyone is (mostly) working in their areas of genius

The Offer:

- Each team member (up to 12) is invited to complete the online Working Genius assessment and review their individual results (time commitment is 30 minutes, maximum)
- The entire team is invited to participate in a 1-hour interactive presentation to discuss the collective results and implications
- **Important Note:** This is not intended to be an in-depth, scientific analysis – rather, an interesting perspective and starting point for productive conversation.

Next Step:

- **Contact** Jane Schroeder to discuss the details:
Jane Schroeder, MS, BCC
